Hi Everyone,

**Just for Today — A Spiritual Forward**

**As we step gently into a new month, may we pause long enough to feel the quiet hum of Reiki moving through our lives. This sacred energy reminds us that beneath all change, all uncertainty, and all the noise of the world, there is a stillness that never leaves us. It is the stillness of connection to Source, to lineage, to one another, and to the deeper truth of who we are.**

**Just for today, may we soften into that stillness. Just for today, may we honour the light that rises within us. Just for today, may we remember that every breath is an invitation to return home to ourselves.**

**Reiki teaches us that healing is not a destination but a continual unfolding. Each moment of awareness, each act of kindness, each time we place our hands with intention, we align with something ancient, wise, and profoundly loving.**

**This month, may your practice guide you gently forward, reminding you that you are part of a living tradition one that carries compassion, clarity, and peace into the world through you.**

**May your heart be steady, your mind be spacious, and your spirit be nourished by the quiet beauty of Reiki. Just for today, and always.**

# Due Diligence Checking

*Enhanced DBS Checks. Certificates you own yourself*

Enhanced DBS Checks – Important Update for All Practitioners
As part of our ongoing commitment to safeguarding, professional standards, and transparent governance, Reiki Tradition is pleased to highlight an important development regarding Enhanced DBS Checks carried out through Due Diligence Checking (DDC).
DDC now provides practitioners with the ability to own and manage their DBS certificate directly, giving you greater control, flexibility, and portability across your professional practice.
What This Means for You

- Your certificate belongs to you – not an employer, organisation, or third party.
- You can use the same Enhanced DBS certificate across multiple roles or settings, provided it meets the requirements of each organisation.
- You have full visibility of your certificate status and renewal dates.
- You can choose to register with the DBS Update Service, allowing your certificate to remain current and easily verifiable.

Why This Matters
For practitioners working within accredited, regulated, or client-facing environments, holding your own Enhanced DBS certificate ensures:

- Greater professional independence
- Faster onboarding when working with new organisations
- Clear safeguarding assurance for students, clients, and governing bodies
- Reduced duplication of checks and unnecessary costs

This aligns strongly with our ethos at Reiki Tradition – promoting trust, transparency

# FHT Annual Congress

13th till 31st October 2026

## Serving the Federation of Holistic Therapist FHT since 2015

Reiki Tradition at the FHT Training Congress: A Decade of Leadership in Professional Reiki Education (2015–2026)
Since 2015, Reiki Tradition School of Reiki has played a defining role in the annual Federation of Holistic Therapists (FHT) Training Congress, contributing specialist knowledge, professional standards, and sector-leading insight into the evolving landscape of Reiki within modern healthcare. What began as a single invitation to share best practice has grown into more than a decade of continuous involvement, shaping national understanding of what safe, accredited, and professionally delivered Reiki should look like.

A Trusted Voice in National Training and Professional Development
The FHT Training Congress brings together practitioners, educators, and healthcare-aligned professionals from across the UK. Its purpose is clear: to raise standards, strengthen professional practice, and ensure that complementary therapies are delivered with integrity and competence.

Reiki Tradition has become one of the Congress's most consistent contributors, offering annual lectures, workshops, and professional development sessions that highlight:

- The importance of accredited Reiki training
- The role of the Core Curriculum in safeguarding public and organisational wellbeing
- The standards required for Reiki practitioners entering clinical and statutory settings
- The evolving expectations of hospitals, hospices, and integrated care teams

Our presence each year reinforces a message the sector increasingly recognises: Reiki must be taught and practised with the same professionalism expected of any healthcare-aligned discipline.

## Serving the Federation of Holistic Therapist FHT since 2015

2015–2026: Building a Foundation of Professional Excellence
Across more than ten years of participation, Reiki Tradition has:

- Educated thousands of practitioners on the Core Curriculum and professional competencies
- Supported FHT members in understanding accreditation pathways and regulatory expectations
- Provided clarity on verification processes for volunteers and paid Reiki roles
- Shared real-world insights from our alliances with hospitals and hospices across the UK
- Championed lineage-honouring, non-westernised Reiki that respects tradition while meeting modern healthcare standards

This long-term contribution has helped shape national conversations around what constitutes credible Reiki training and how organisations can confidently integrate Reiki into patient-centred care.

This Year's Theme: Working Professionally With Reiki in Integrated Healthcare
The 2026 FHT Training Congress focuses on a topic that sits at the very heart of Reiki Tradition's mission: Working professionally with Reiki in Integrated Healthcare.
Our contribution this year highlights:

- How Reiki practitioners can safely and effectively support clinical teams
- The professional behaviours expected within hospitals, hospices, and statutory environments
- The importance of infection control, safeguarding, documentation, and organisational compliance
- How accredited training ensures practitioners meet the standards required for patient-facing roles

The growing demand for Reiki within oncology, palliative care, wellbeing programmes, and end-of-life support

## At The Therapy Rooms

4th May 2022

Our Reiki & Spiritual Library at The Therapy Rooms

At The Therapy Rooms, we are proud to offer a beautifully curated Reiki and Spiritual Library, created to support every student throughout their learning journey. Over many years, we have gathered an extensive collection of books covering Reiki, energy work, spiritual development, meditation, Eastern philosophy, personal growth, and practitioner guidance.

Many of these books have been kindly donated by our wonderful students, practitioners, and friends of Reiki Tradition. Their generosity has allowed our library to grow into a rich, diverse resource that reflects the spirit of community, sharing, and continued learning.

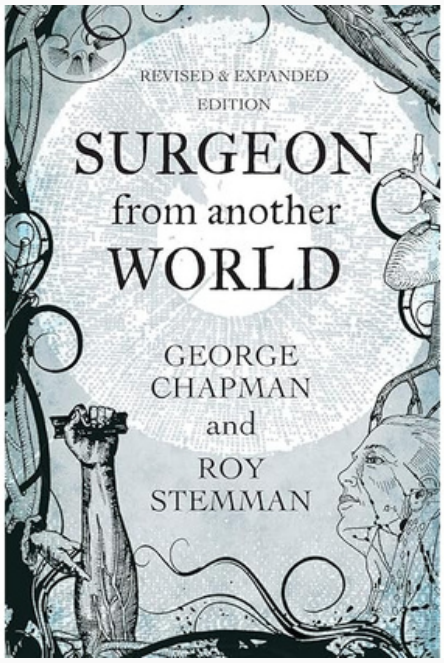

Our library is available free of charge to all Reiki Tradition students and Accredited Practitioners. Whether you are beginning your Reiki path or advancing into higher levels of practice, you are welcome to browse, borrow, and explore the titles that resonate with your development. Each book has been carefully selected to enrich your training, broaden your perspective, and offer new insights into working with energy, guides, and spiritual awareness.

We encourage you to make full use of this resource. Take time to sit with a book, reflect on its teachings, and allow it to support your growth both personally and professionally.

Professional Record Keeping and the ICO: Compliance, Risks, and Fee Structures
Maintaining meticulous, professional records is a core legal requirement under the UK GDPR and the Data Protection Act 2018. Regulated by the Information Commissioner's Office (ICO), organizations handling personal data must treat record keeping as a critical defensive and operational asset.

**1. Why Professional Record Keeping Matters**

- Demonstrating Accountability: Under data protection legislation, you must not only comply with the law, but you must also be able to prove it. Professional records act as your primary evidence.
- Meeting Legal Documentation Mandates: Organizations processing personal data are legally required to maintain formal documentation, such as Records of Processing Activities (ROPAs).
- Streamlining Information Rights: Subject Access Requests (SARs) have strict statutory response deadlines. Well-indexed records ensure you can locate, review, and redact data efficiently.
- Mitigating Breach Fallout: If a data leak or cyber incident occurs, the ICO investigates your overall preparedness. Clean, updated records prove that data security is taken seriously.

# Information Commissioners Office ico.

**2. Key Risks of Inadequate Record Keeping**

- Regulatory Enforcement: The ICO has the power to launch formal audits, issue heavy reprimands, and levy substantial monetary fines.
- Operational Blind Spots: Without clear data-mapping and retention schedules, organizations hoard unnecessary data, increasing exposure risks.
- Reputational Damage: Facing a public ICO investigation or enforcement action due to disorganized data practices severely erodes client trust.
- Legal Offenses: Intentionally altering, concealing, or destroying records to prevent disclosure after a request or complaint can constitute a criminal offense.

**3. Best Practices for ICO-Compliant Records**

- Maintain Clear Logs: Document your processing activities, lawful bases, data-sharing agreements, and retention timelines.
- Enforce Retention Schedules: Delete or anonymize personal information securely once it no longer serves a lawful purpose.
- Conduct Regular Audits: Map out what data enters your organization, where it lives, who accesses it, and how it is secured.
- Train Staff Continuously: Ensure employees understand professional record keeping, secure data handling, and prompt breach reporting.

**4. ICO Data Protection Fee Structures: Paid Tiers & Exemptions**

Every organization processing personal data must either pay an annual data protection fee or legally qualify for an exemption.
The Paid Tiers (Annual Registration)
Fees are scaled across three tiers. Setting up an annual Direct Debit grants a flat £5 discount.

| Tier | Organisational Criteria | Standard Fee | Fee with Direct Debit |
|---|---|---|---|
| **Tier 1 (Micro)** | Max turnover of £632,000 OR 10 or fewer staff. (Charities and small pension schemes automatically qualify here). | £52 | £47 |
| **Tier 2 (Small & Medium)** | Max turnover of £36 million OR 250 or fewer staff. | £78 | £73 |
| **Tier 3 (Large)** | Large corporations exceeding Tier 2 thresholds. | £3,763 | £3,758 |

FURTHER INFORMATION
CONTACT MARTIN

admin@reikitradition.org.uk

NEXT

# Information Commissioners Office ico.

**5. The "Free" Structure (Exemptions)**

If your data processing falls wholly within specific exempt categories, you pay £0 and do not need to register a fee. Common exemptions include:

- Core Accounts & Records: Financial records kept strictly for your own business operations.
- Staff Administration: Managing internal personnel records, payroll, and HR functions.
- Advertising, Marketing, & PR: Lists of customers maintained strictly for your own promotional updates.
- Personal/Household Affairs: Data processed by an individual for purely domestic reasons.
- Not-for-Profit Purposes: Processing data solely to manage membership in a club or association.

Crucial Caveat: If you process data outside these narrow bands—such as utilizing CCTV systems for business security, tracking online user behavior, or handling health data—the exemption is broken, and the standard paid tier applies. Failing to pay when required triggers fixed-penalty fines from the ICO ranging from £400 up to £4,000 depending on your tier.

## CANCER SUPPORT

## A peep inside Sharons work

### Reiki Tradition School of Reiki

In 2015, Reiki Tradition was first introduced to a local hospice within the Tameside area. We were invited to deliver an Accredited Qualification Pathway in Reiki to members of the management team. Shortly after this initial training, the hospice began integrating Reiki within the McMillan Unit at Tameside NHS Hospital.
Reiki Tradition was proud to have our very first Accredited Reiki Practitioner working within the McMillan Unit, a role they continued with dedication for eleven years. As the McMillan Unit has expanded, Reiki Tradition has remained closely involved, supporting the development of voluntary placements for our Accredited Reiki Practitioners within the unit.
If you are interested in exploring voluntary opportunities within the McMillan Unit, please contact me

### Sharon Whiteley

Introducing Sharon – Reiki Practitioner & Assistant at Reiki Tradition.

I would like to introduce you to Sharon a personal friend, dedicated Reiki Practitioner, and Assistant at Reiki Tradition.

Before we share Sharon's story from her work with Macmillan Cancer Support, it is important to acknowledge her journey with us at Reiki Tradition School of Reiki.

Sharon first came to us in 2015 to discuss continuing her Reiki training. She had already completed her 1st and 2nd Degree with another training provider. Sharon specifically required an Accredited Pathway to enable her to work within Statutory Settings, and in 2016 she began that pathway with us. On 2nd May 2017, Sharon became an 11th Generation Reiki Master.

Since 2015, Sharon has assisted me on almost every Reiki course we have delivered. She is truly dedicated and passionate in everything she does.

Let's take a moment to read Sharon's story

### We need More Students

Due to the expansion of the Teesside Hospice we are currently looking for Accredited Students to join us working single handedly as part of a much larger multidisciplinary team.

I need to emphasise these positions are only open to our Accredited Qualification Students.

If you are interested please contact me. Not The Hospice

## CANCER SUPPORT

**Sharon Whiteley**

**The day and life of working Professional**

My name is Sharon Whiteley,
and I would like to share my story with you.

Reiki has always been a central part of my life, and from the very beginning my dream was to give back by working within Statutory Settings, particularly in palliative care and end-of-life environments.

I Before 2015, I completed my Reiki 1st Degree and Reiki 2nd Degree training. At that time, Accreditation was not yet established within the Reiki community. As Reiki evolved, so did the professional standards required to work safely and competently within Statutory Settings. Although my original training introduced me to Reiki practice, it did not meet the standards now required for practitioners working within Statutory Settings.

To continue my journey in palliative and end-of-life care, I needed to undertake Accredited training aligned to the Core Curriculum and National Occupational Standards. In 2016, I began searching for an Accredited Reiki Training Provider. To my surprise, I discovered that Reiki Tradition School of Reiki, owned by Martin Thirlwell, was located just five minutes from my home. At that time, Martin's school was the first Accredited Reiki Training Provider in the Northwest of England, accredited by the Federation of Holistic Therapists (FHT).

I was genuinely amazed that such a reputable training provider was right on my doorstep. After speaking with Martin and sharing my aspirations, he guided me through the Accredited Qualification Pathway, which I began immediately. I also undertook additional training to bring my 1st and 2nd Degree qualifications fully in line with national standards.

In 2018, after being invited by Martin, I began working at Springhill Hospice in Rochdale. I remained there until February 2025, when I stepped back due to illness. In 2024, I was honoured to receive a Five-Year Volunteer Service Award from Springhill Hospice, a milestone that meant a great deal to me.

## CANCER SUPPORT

**Sharon Whiteley**

**The day and life of working Professional**

On 29 July 2026, I was invited to join the team at the Macmillan Cancer Support Unit at Tameside NHS Hospital.

Martin has had a long-standing alliance with the Macmillan Unit since 2015, following his training of lead staff at Willow Wood Hospice. One of his first practitioners went on to serve an incredible eleven years across both Willow Wood Hospice and the Macmillan Unit.
I can honestly say that I am delighted with what I have achieved. I have reached the goal I set for myself many years ago: to serve patients with compassion, professionalism, and accredited Reiki practice within Statutory Settings.

Reiki has shaped my life, my purpose, and my service to others. I am proud of my journey and grateful for every step along the way.
